THE WORLD'S MOST DOCUMENTED PSYCHIC!

Who *accurately* predicted the 2020 Pandemic, Trump's Impeachment, the Economic Crash, 9/11, India's Taj Mahal-ocaust, Titanic's discovery, Michael Jackson's Death, "murder" of Pope John Paul I – and thousands more!

STARGAZER

**PREDICTIONS & PROPHECIES FOR 2021
– AND BEYOND!**

Watch for Anthony's New Year predictions in the National Enquirer! (Jan. 2021)

This issue is dedicated to my late, long-time friend, Jacqueline Stallone.

"...And now my own Electrical Soul is nearly at One with Jacqueline's, in the Realm of the Spiritual. In short, I now have one foot in the grave and the other one in Heaven (...I hope). Trump, however, has *both* feet in the grave and his ass on a banana peel! (...I hope)."

¹ Anthony's complete appellation is Sir Anthony Lonsdale-Carr, by virtue of the de facto courtesy title bestowed upon him – *personally* – by Her Most Serene Highness, the late, Lady Iris Mountbatten, born at Kensington Palace; great-granddaughter of Queen Victoria; 2nd Cousin of late King George VI of England and Great Britain; 1st cousin of His Daughter, Queen Elizabeth II and, of course, the late Lord Louis Mountbatten, WWII Supreme Allied Commander of Southeast Asia and the last Viceroy of India.... For obvious reasons, Anthony rarely uses the title....

“President-elect **DONALD TRUMP** is going to march us down the path to hell – and straight into World War III!! Within two years he’ll leave office, either vertically or horizontally, and the Presidency will never be the same again, his having left it in shambles....”

**The above prediction was first prophesied in STARGAZER: Predictions & Prophecies 2016.*

“...End of TRUMP's reign of terror by year deux. Then, no more U.S. Presidential Office as we now know it.... (And if I'm wrong, I'll be the first to apologize in public and on air!)”

**The above prediction was first prophesied in STARGAZER: Predictions & Prophecies 2018.*

Current cling-on U.S. President **DONALD TRUMP** will seek – and *probably* win – another term after Biden's. I see a medical gurney being carried from a building on which reposes a body whose grey hair sticks out from beneath a shroud. From this point on, Trump will adopt a more moderate demeanor in order to do what's "right" for the American people, as he attempts to strategize his way back into the White House over what we'll now refer to as his new, pre-3-year campaign. Criminal charges notwithstanding.

* * *

“**PRESIDENT**” **TRUMP** will use every possible trick in his arsenal to stay in Office. Even as de facto President! And he’ll remain in the public eye as de facto President until he makes another bid for the Brass Ring in three years.

* * *

JOE BIDEN will be the oldest sitting American President to hold office. But the stress may get to him and he may not see the end of term. (Senior health issues!... Then vice president Kamala Harris steps in.)

* * *

Astounding new evidence forthcoming that (JFK's) **JOHN F. KENNEDY'S** assassination Nov. 22, 1963 in Dallas, Texas was planned and carried out by three “heads of state” (both legit and illegit) and three marksmen! This will come directly from soon-to-be dying lips of the last surviving shooter. (*Actually, I just now – Nov. 23, 2020 – picked up the “Enquirer” that says FBI head, J. Edgar Hoover, was probably complicit in the assassination of JFK. I was writing this a week before copy hit the stands! Talk about telepathic?!)

* * *

JULIA ROBERTS and 60-year-old Limey Lathario **HUGH GRANT** to unite in a sequel to their 1999 smash hit flick, Notting Hill. The storyline picks up from the “lived happily ever after” ending and continues on with “After 21 years of wedded *mess* – Notting Doing! No More – Get Lost!” She’ll also star in an updated version of *Pretty Woman* called *Cougar Woman*.

Fun and games with Harry and Megan:

Harry is only too willing to be led around by the nose by Megan. It’s a story as old as the hills. A twice told tale of a debauched “Royal” couple, not unlike the lives of late 1930’s Duke and Duchess of Windsor. Their lives were an endless round of cocktail parties and sexcapades, as told by Hollywood procurer Scotty Bower’s book: *Full Service: My Adventures in Hollywood and the Secret Sex Lives of the Stars*. I’m afraid the yellow brick road in this case leads H&M not to Utopia, but to dystopia. And for all the good they might have done in the world, they may just as well have never been born. ...But I do see twins.

* * *

Billionaire **RICHARD BRANSON’S** baker’s dozen star-studded planned 2021 launch into space could well end in disaster! All the late Hollywood stars in the familiar MGM mantra that “There are more stars in our studios than there are in heaven” are crying out through my psyche – “Don’t do it! Don’t do it! – lest there be 13 more permanent fixtures in the firmament!” ...Incidentally, sweet **SHIRLEY MACLAINE** is about to join that heavenly realm, but by the old fashioned, tried-and-true method....

* * *

Because of worldwide economic close downs, human populations become ultra-depressed from no work, no prospects, no money, no entertainment – (even if they *had* money there’s nothing entertaining to spend it on) – and *could* go stir-crazy and begin killing, en masse. However we will all be spared that end because everyone will be too depressed to even bother trying to carry it out.

* * *

JOHN TRAVOLTA is facing an accident-prone year! For safety’s sake, he should double – and triple check – his private plane, which he personally pilots. *Great* danger ahead!

* * *

TOM CRUISE and **KATIE HOLMES** choose to separate. He will always remain close with **NICOLE KIDMAN** because of their unique, shared relationship and “*closeted*” secret. One more marriage for little Tommy for appearances’ sake before he comes to

that old familiar crossroads of life and makes the decision that will forever change his life and career; and one more divorce.

* * *

AL PACHINO's and **ROBERT DENIRO's** intense reciprocal professional jealousy escalates exponentially when Robert discovers Al wearing red flannel underwear... *long ones*, at that.

* * *

There is fierce professional competition between **GWEN STEFANI** and cowboy singer **BLAKE SHELTON**, not to mention a fair age difference (she's seven years his senior and extremely insecure). Nonetheless they are violently attracted to each other, according to their astrological sun signs – she Libra, he Gemini – and therefore will soon tie the Gordian knot of matrimony.... Baby coming!

* * *

CHARLIE SHEEN is offered a “super” movie deal – a great deal! – which lifts him from current near-obscurity to super-stardom, the like of which not even he could imagine.... A dramatic role forces “his reach to exceed his grasp.” (Or is it the other way around?) Notwithstanding, it is ultimate success!!!

* * *

Monaco's **PRINCE ALBERT** is involved in a fatal car crash very near the treacherous mountain spot that killed his mother, **GRACE KELLY**.

* * *

PRINCESS STEPHANIE should be wary of her valet and men servants when they're around her grandchildren. The butler did it! (...Or may do it.)

* * *

In my Mind's Eye, I see walls of flame surrounding the British Royal family.... The Killer asteroid flies by!

* * *

I see a boating accident around **ALEX RODRIGUEZ** and **JENNIFER LOPEZ**. Alex takes a page from O.J. Simpson's book – on murder! Don't be surprised.

* * *

Super mom **ANGELINA JOLIE** surprises Tinseltown by forgiving and forgetting all injustices (real or imagined) committed by her father, actor **JON VOIGHT**. When Jolie's

male progenitor is rushed to hospital – seriously stricken – she wastes no time flying to his side!

* * *

I see funerals around **ANGELINA JOLIE** and **HOWARD STERN**.

* * *

JOHNNY DEPP secretly loves a married movie star who is the “love interest” in his next blockbuster. This ignites sparks between *them* and her real-life husband, a Hollywood heavy hitter. Watch for fireworks!

* * *

WILL SMITH will wish he had his famous memory-zapping neuralyzer from *Men in Black* when his quick-tempered wife, **JADA**, catches him *in flagrante delicto* with a beautiful redhead! All hell breaks loose as she goes Mike Tyson on them both!

* * *

O.J. “The Juice” SIMPSON turns to God in his last days, praying for forgiveness and preaching the Gospel to one and all! (Amen)

Eventually this virus will go the way of all dodo bird viruses and slip through the cracks of public consciousness into sweet oblivion: – Spanish flu, Asian flu, Swine flu, H1N1 flu, SARS and now COVID-19 – which are all still out there and still infecting us, but we don’t know it... don’t even give it a second thought. Why? Because the MEDIA has left them alone in order to CONCENTRATE ON COVID-19. WHY? – MONEY! – MILLIONS OF DOLLARS IN MEDIA ADVERTISING FOR NEWSPAPERS, TV AND RADIO NETWORKS! – It’s what drives that industry and pays the bills! So it’s in their best interest to keep the public terrified and glued to newspapers, radio and TV! The more people watch-listen-and-read, the more do-re-mi they make. Get it?

The Covid-19 story broke in March which just happened to coincide with the beginning of the News Ratings Wars, as it does every year. For the media, it couldn’t have happened at a better time – perfect! The scarier the story, the greater the pay day! Millions of people the world over die each year from some kind of flu bug, especially the elderly. But you don’t know about it, because there’s no publicity about it. None. Zip. Zilch! This is *not* the Black Death of 1666 London, when men pulling carts behind them went up and down streets yelling: – “Bring out your dead! Bring out your dead!” – Yes, it’s a serious virus. But that’s all it is! A virus! IT’S NOT THE BUBONIC PLAGUE!!! **THIS WILL PASS!!!** And I know, because I’m the guy who first predicted it – and the “precipitous economic collapse” – in my 2007/2008 books, *STARGAZER: Predictions & Prophecies!* And even I exaggerated the story (I hope) in order to sell books – it’s the

nature of the journalism beast!

The best cure of all? – TURN OFF YOUR GODDAMN TV AND GO ABOUT YOUR BUSINESS!

President Trump was right about one thing – (and probably the *only* thing he was ever right about in his capacity as twisted President), and I'm paraphrasing here: "If the economy dies then we die, too!" ...So we might as well take our chances with the "flu" and simply carry on. The alternative is starvation, rioting, robberies, muggings, mayhem and murder!

Seventy-five percent of this is Media Hype! That's it! In the famous words of the late, great 32nd American President, Franklin Delano Roosevelt (FDR), "There is nothing to fear but *fear* itself!..."

Parable: *Goldilocks and the Three Bears*: "...And Goldilocks tasted the first bowl of porridge, but it was too cold; then she tasted the second bowl, but it was too hot; and finally she tasted the third bowl, which was just right and so she ate it all up...."

Moral: The cold bowl of porridge is all the naysayers, "Oh, there's no virus – it's all propaganda!" ...Well, that's ridiculous; of course there's a virus, and a serious one at that. The hot bowl of porridge is the cowardly *Chicken Little* – "Ohh! The sky is falling! The sky is falling!" – group. They're the ones wearing masks, even alone in their cars or by themselves, in the forest. That's absurd! The third bowl of porridge is baby bear's and is the "common sense" crowd. Yes, it's serious, but use the good horse sense that God bestowed upon you: If you're in a crowded elevator or a crowded room where people are coughing and sneezing – yes, by all means, cover your face – as you should do if anyone around you has *any kind* of a flu bug! But not if you're isolated somewhere in the great outdoors. It's not a Dracula-like bat hovering overhead just waiting to swoop down and bite you on the neck! – or work its way up through the machinations of your car engine in order to grab you by its throat!... COMMON SENSE, PEOPLE!

(P.S. – Although antibiotics are useless against the onset of a virus – *any* virus – they are very good against secondary infections, which are bacterial – namely pneumonia! Which people are dying of. When pneumonia *truly* takes hold – even antibiotics have great difficulty battling it. So keep antibiotics at home, at the ready, and when the initial flu strikes – wait a couple of days, until you feel it enter the lungs and pleural sacs – then start taking them. This will combat the congestion and keep you breathing freely. Too many people wait too long until pneumonia tightens its fatal grip. Personally, I and my 98 year old WWII Veteran Mother (a front line nurse!) always keep 500 mg Levofloxacin tablets on hand. And if your idiot family doctor won't give you any, then find one who will! Stay well.

Cheers,

Sir Anthony Lonsdale-Carr
